Articulating armcap
Rotates 30 degrees left or right for mousing and keyboarding. Additional armcap styles are available as an option. See price list for details.

Height adjustable arm
Provides 4" of vertical travel and is standard with a soft to the touch but durable arm cap.

Adjustable seat depth
The back moves in and out to allow the user to change the seat depth to match their leg length via a knob at the rear of the chair.

Pivotback offers a unique back action that follows the users motion.

exceptional support

The patented pivoting back ensures constant contact with the user's body providing exceptional support and encouraging active movement of the spine, discs and muscle structure of the back. A chair for individuals that are concerned about healthy sitting postures

Designed by leading chair designer Zoey Chu, this series offers exciting performance, appearance and value.

2357-4 - Medium Back Tilter

2356-3 - High Back Multi-Tilter

Most chairs have a rigid fixed back, but the human body is designed to flex and move. The innovative patented Pivotback system is different. It offers a unique pivoting back action that follows the user's motions and enhances and encourages natural spine motion. This back ensures complete contact with a body in any sitting position and provides exceptional support while encouraging constant healthy movement of the back. A chair designed to work with your bodies natural anatomy for individuals concerned about their spines' future health.

2356-3 - High Back Multi-Tilter

2357-3 - Medium Back Multi-Tilter

2358-6 - Medium Back Task with arms
